

3 Courses

Cybersecurity Foundations & Threat Mitigation

Security Architecture & Operations

Security Governance, Compliance & Risk Management

Sep 8, 2026

Kwesi Hammah

has successfully completed the online Specialization

CompTIA Security+ (SY0-701)

Upon completing the course, you will be awarded a certificate acknowledging your mastery of security concepts, risk management, and threat mitigation strategies. The course covers a broad range of topics, from security control categories to encryption solutions and vendor assessments. You will also learn how to defend against social engineering, cyber-attacks, and manage security policies. By completing this program, you demonstrate your ability to secure IT systems, respond to vulnerabilities, and ensure operational continuity in today's complex security environment.

Packt

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
